ADVENTURER SKILL

By MWANZA misheck

1 BASIC FIRST AID

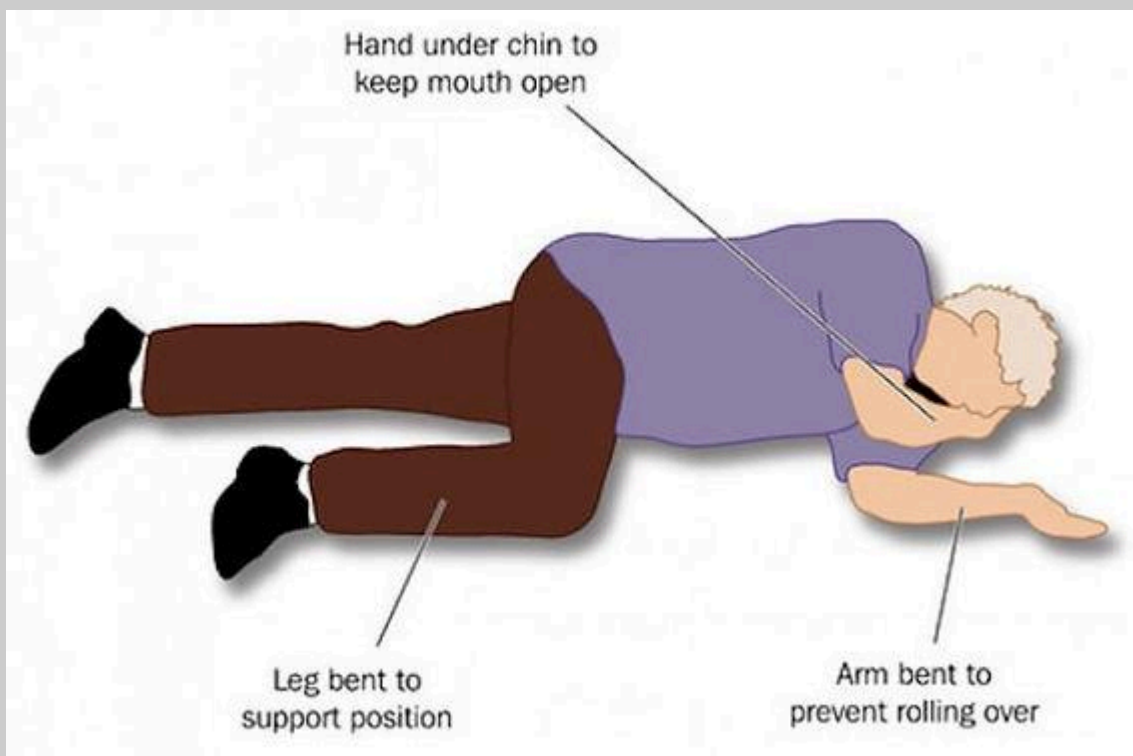

First aid is the first help given to a person who is injured or suddenly ill before professional medical help arrives. The main purpose of first aid is to save life, prevent the injury or illness from becoming worse, and promote recovery.

First aid includes caring for minor injuries such as cuts, bruises, burns, insect bites, and nosebleeds. It also involves knowing when not to touch an injured person and when to immediately seek adult or medical help. Remaining calm during an emergency is an important part of first aid.

Healthy Food

Unhealthy Foods

Adventurers learn that food affects how the body works. Healthy foods help the brain think clearly, the body grow properly, and the immune system fight disease. Unhealthy eating habits can cause sickness and weakness.

This skill helps children develop good habits that can last a lifetime. Healthy eating is part of caring for the body God has given us 🍎.

5 ROAD SAFETY 🚦

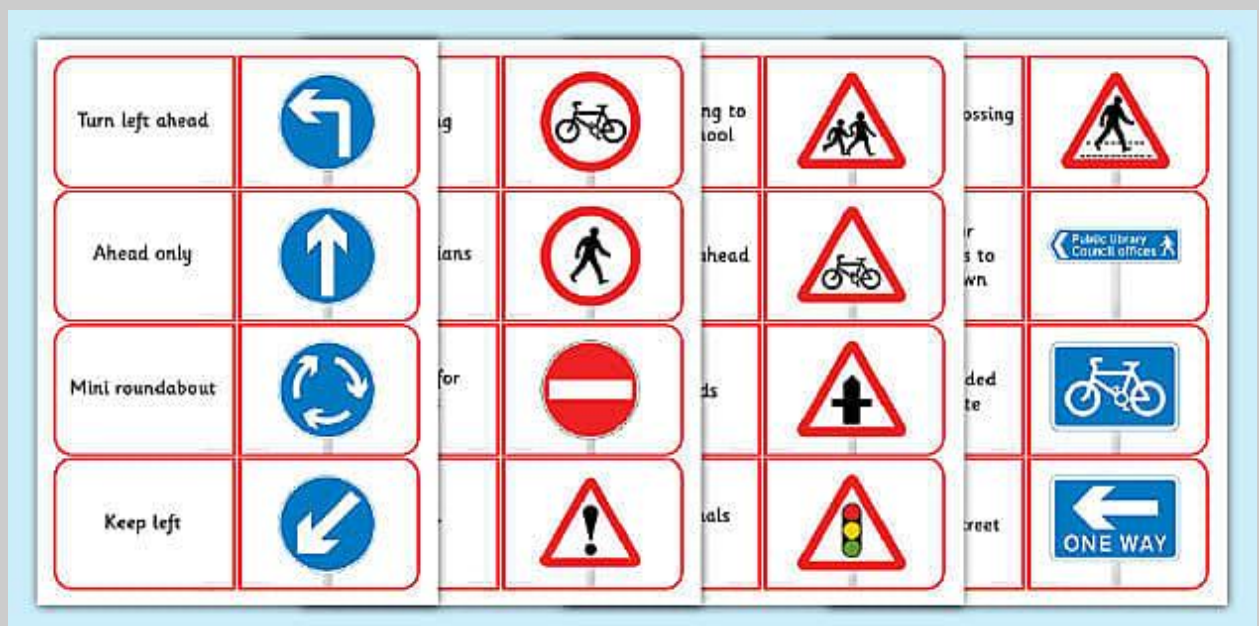

Road safety is the knowledge and practice of using roads safely to prevent accidents and injuries. Roads are shared spaces used by vehicles, bicycles, and pedestrians.

Adventurers learn that road safety includes obeying traffic signs, crossing roads carefully, and staying alert near moving vehicles. They understand that carelessness on the road can

		
Stop	No pedestrians	No bicycles
		
Roadwork ahead	Signal ahead	Left turn ahead
		
Yield	Railroad crossing	School ahead
		
Do not enter	Hospital	Speed advisory

lead to serious harm.

This skill teaches awareness, responsibility, and respect for rules designed to protect life.

6 FIRE SAFETY 🔥

Fire safety is understanding how fires start, how to prevent them, and what to do if a fire occurs. Fire can be helpful when controlled but very dangerous when misused.

Adventurers learn that fire safety involves avoiding fire hazards, recognizing danger, and knowing how to escape safely. They also learn that following safety rules can save lives.
